GRADUATE RESEARCH AND CREATIVITY EXPO

Thurs., April 9

1 - 4 p.m.

**Elliott University
Center**

**“SCHOLARSHIP
THAT MATTERS”**

A SHOWCASE OF TALENT!

More than 80 graduate students will showcase their work in the natural, physical, and mathematical sciences, creative arts, health sciences, humanities, professional programs, and social sciences through individual and team discussions.

Sample of the range of topics:

- The Healing Power of Art
- Evaluating the Cognition of Persons with Dementia after Interaction with Natural Elements
- Genetic Variants Contributing to Undiagnosed Bleeding Disorders
 - Study of a Competitive Athlete with Multiple Sclerosis
 - Perceptions of Parenting Behaviors and Substance Abuse in Transition-Aged Youth
 - Evaluating Retail Service Quality in the Bridal Industry
- Effect of Redevelopment on Historic Character of Ole Asheboro
- Providing Low-Income Families with Diapers from a Diaper Bank
 - Are Natural Products the Superbug Kryptonite?
 - Seasonal Variation of Mercury in Peatland Waters
- Jump-Starting the Cell: How Viruses Evade Anti-Viral Drugs through Alternative Gene Activation
- Implications of International Online Shopping by US Consumers
- Music Instruction and Improved Function in Children with Autism
 - Pony Club, Therapeutic Riding Centers, and Competitive Opportunities for People with Disabilities

Please plan to join us on April 9 and learn more!
